Emergency Evacuation Prosecure
Please read the following

On discovering a fire, raise the alarm, stay calm.

The alarm can be activated by breaking the glass on any red fire alarm activation point or by dialling reception at extension "0".

Close all doors and windows. Do this to help prevent the spread of smoke and fire only if it is safe to do so.

Evacuate all occupants from the danger area. Make sure all occupants of your room are accounted for.

If they are in any part of the hotel leave by emergency exits and report the situation to the Fire Warden at the assembly.

Do not attempt to fight the fire. Do not stop to collect luggage. Leave the building by the nearest emergency exit.

If the corridor or emergency stairwells are blocked or full of smoke return to your room. Close the door and telephone reception informing them of your location.

If you encounter smoke, stay near the floor where the freshest air will be found.

If possible, put sheets and towels around the bottom of the door.

Do not return for any personal belongings. On leaving the hotel, go straight to the guest assembly.
